### **DETAILED ACTION**

1. The remarks filed on January 31, 2008 have been entered. Claims 9-16 are pending.
2. The objection to the specification is maintained because of lack of brief description of drawings in the specification; minor informalities with respect to page 4, line 12, (distillation column is depicted by number 3, whereas in Figure 1, distillation column is designated as number 23) and also abstract of disclosure is missing.
3. Applicant's arguments, with respect to claims 9-12 as being unpatentable over Fabin (USPN 4,478,621) have been fully considered and are persuasive. The rejection of claims 9-12 over US patent 4,478,621 has been withdrawn.
4. The rejection of claims 9-12 as being unpatentable over Fabin (DE19541339 ) is maintained for reasons of record as recited in the office action dated on October 31, 2007.
5. Applicant's arguments filed on January 31, 2008 have been fully considered but they are not persuasive. Applicant stated that Fabin '339. does not teach that the carbon monoxide-rich stream is withdrawn from second intermediate point. Also, the liquid carbon dioxide is removed from rectification column at the top and not at an intermediate point. The examiner notes the differences with respect to location of withdrawing carbon monoxide-rich stream and carbon dioxide. However theses differences are not patentably distinct in the absence of unexpected results. With respect to the number of rectification, examiner notes that the language of claim 9, "comprising" does not limit the number of rectification to only one column.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
